PROFESSIONAL SUMMARY

Software Engineering student and full-stack developer with experience building production-oriented web applications, SaaS platforms, and e-commerce systems. Strong focus on clean user interfaces, scalable backend APIs, secure authentication, payment workflows, and deployment-ready applications. Seeking a frontend or full-stack internship where I can contribute to real projects and grow through mentorship and code review.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind, Shadcn/ui, AI SDK, Framer Motion, i18n

Backend: Node.js, NestJS, Express.js, REST APIs, Authentication, Webhooks

Databases & Infrastructure: PostgreSQL, MongoDB, Redis, Docker, Nginx, Git, Stripe, Paddle

PROJECTS

YSHAI — AI-Powered Multilingual Social Media Management Platform

GitHub: <https://github.com/YASHDEV42/YSHAI> | **Live Demo:** <https://youtu.be/MADwak6SvSI>

- Built a full-stack AI-powered SaaS platform with 10+ core modules for content creation, scheduling, publishing, analytics, campaigns, and team collaboration.
- Developed a multilingual interface supporting 3 languages, including RTL for Arabic.
- Integrated Meta/social APIs for account connections and platform-specific publishing
- Implemented BullMQ-powered background jobs for reliable post execution.
- Implemented 6+ production features including OAuth flows, Paddle billing, Cloudinary uploads, JWT auth, AI tools, and analytics dashboards.

YASHSTORE — Full-Stack E-Commerce Platform

GitHub: github.com/YASHDEV42/YASHSTORE | **Live Demo:** <https://youtu.be/DhGAmZbGHws>

- Built a full-stack e-commerce platform with auth, product catalog, cart, Stripe checkout, orders, and an admin dashboard.
- Built secure payment and order flows using Stripe PaymentIntents, webhooks, NextAuth.js, Prisma, and PostgreSQL.

EDUCATION

Bachelor's Degree in Software Engineering, Firat University — Expected 2028

LANGUAGES

Arabic: Native, **English:** Professional working proficiency, **Turkish:** Intermediate
